Additional Comments/Observation/Items Not Rated:

There were only two CDC 115's where an I.E. Report was completed. Neither of the reports provided or documented E.C. Due to there being less than three of these due process events, the I.E. Reports were not rated.

There were two inmates who were medically unassigned or on medically disabled status. There were two CDC Form 128-G's reflecting a classification committee's review of the CDC 128-C or CDC Form 7410. Due to there being less than three due process events, these items were not rated.

The orientation process in R&R is appropriate for the inmates arriving at Centinela State Prison general population. The inmates who arrive for placement in the Correctional Treatment Center are not processed through R&R; therefore, they do not receive the inmate orientation.

The institution did not send all of the physical plant and maintenance documents for the production period, so OAC rated the documents provided. The institution was able to recreate the Work Requests that were not sent for the production period after we arrived at the institution.

Because the institution is on an automated system, there were no Plant Operations Work Requests (CDC Forms 2184) on site and supervisors were not signing the Work Requests per Facilities Management Division's written directive.

Some of the Work Order Coordinators (WOC) who had multiple areas processed work requests inappropriately. This produced a log number on another WOC's log instead of on the generating WOC's log.

**CENTINELA STATE PRISON
DISABILITY PLACEMENT PROGRAM
COMPLIANCE REVIEW
EXECUTIVE SUMMARY
MAY 3 - 6, 2010**

If information is entered incorrectly into the automated system, it is captured. However, it will not print out on the WOC's log although it can be manually retrieved by Plant Operations. Log numbers are not captured if they are duplicates, put on hold, or deferred to another department. The reason for the deferral is that the request is not in the scope of Plant Operations (i.e. garage, locksmith, etc.).

There were no ADA work requests or work orders for the 12-1-09 through 2-28-10 rating period. One ADA work order, not rated, from 11-09-09, was completed correctly.
